We guarantee that all the materials and products that we (including our subsidiaries and affiliates) deliver to the JEOL Group directly or through third parties do not include substances to which the chemical substances described below are intentionally added, unless directed by the JEOL Group.

**Specified Chemical Substances:**

**Prohibited Chemical Substances / Substance Groups Listed in the List of Controlled Chemical Substances (G203) (32 Management Sections)**

Additionally, with this guarantee, we will take the following measures:

- Follow instructions in drawings about auxiliary materials, raw materials, and surface processing. \*
- Use self-procured items after confirmed the non-inclusion of specified chemical substances. \*
- Report any 4M change by submitting a prior application.
- When placing orders with a secondary contractor, check the content of the ordered material for compliance with this guarantee of non-inclusion in the same way.

\* If we deliver any items including the above substances because they are outside the scope of restrictions for each chemical substance/chemical substance group or they fall under the exemption period, we will consult with the personnel who handle the acquisition of those items and then report the details of the chemical substance inclusion.
